Paul Hunter

Office Managing Partner, Innovative Technology Advisor,
Electronics/Software Patents at Foley & Lardner LLP

San Diego

Summary

Paul Hunter is a partner with Foley & Lardner LLP, chair of the firm's Electronics Practice, and Managing Partner of the San Diego office.

Paul counsels companies on a wide-range of legal and business issues relating to technology, intellectual property, and commercial transactions across many industries, including telecom, Internet of Things (IoT), health care, medical devices, automotive, aviation, computer software and hardware, alternative energies, power systems, and many other electronics fields. His prime focus as a trusted advisor is to assist companies in maximizing the value of their technology. Mr. Hunter has represented emerging growth entities, middle market companies, and multinational corporations in their strategic planning, development and growth.

His technical skills in electronics and computer technologies include telecom, computer software and hardware, semiconductor devices and fabrication processes, alternative energy technologies, and medical devices.
